Calcu-Late is a very interesting puzzle game that may help with wasting time. There are different phases in this game. In the trial phase, the player will be given a puzzle that can be solved alone by thinking or calculating. In the next phase, which is the battle phase, the player will have a match against the AI. Battles require concentration and patience.. Basic but a fun little intro to VR shooters. Total War Games vs. World War I -----> Winner WW1

Age Of Empires Games vs. World War I ----->Winner WW1

Any Real-Time Strategy game vs. World War I ----->Winner WW1

Buy this game and \u2665\u2665\u2665\u2665 your foes from their butts.

(There is only campaign but it's enough for me)

Playable Countries:France\English, Germany, Russia. Fantastic motion capture and an intriguing, emotional interactive experience. The acting is good. Only let-down is the experience is only 20 minutes at the moment, akin to a short film in VR, although being this is episode 1 this will be well worth it as more episodes release. Hopefully this will all be together as a bundle.. The "Sleepy Hollow" dlc for Tales of Escape has to be my favourite of the bunch.

The story is that you're in a spooky graveyard for some reason and you need to find your way out.

The map looks decent just really dark. The 2d trees and plants are well not the best.

The first part of the map is pretty easy but after getting into the first room it get harder. The second half of the map requires alot of trial and error to get through. In the last part it gets a bit dumb but not too dumb.

It lacks some polish, some minor things like on Vr you can get the head out of the coffin in the church and that the steam achievement "Lost your head? I have enough for two..." it says "Sleepy Gollow" Instead of "Sleepy Hollow".

Still its pretty good.

I'd recommend buying it and making 1 or more of your friends also buy it.. its a fun cooking game.. I actually had fun and enjoyed playing this in spite of a lack of nostalgia.

Also, who are you maining in fighting games and why isn't that character Selena?. Very very basic game, best I can tell it uses 3 arrow keys for all controls. Grab it on sale it'll be worth it on sale,

Hands down the best way to make a DLC,giving us more insight into the development of the in-game cutscenes and how they came up with the ideas.The way they made the live-action cutscenes is \u2665\u2665\u2665\u2665ing hilarious,I laughed every time I see Griffon.. so...i was gonna go on a rant about how the camera work hurts my eye,and the action is bland and boring,the rooms are un exciting,there are no real challenge,and the game is pretty unplayable and bland....but then this new update came along,and....problem solved!

the physics feels a lot more smoother,the camera work is improved a LOT,no more eye pain!the action is a hell of a lot more fast paced and you can easily get overwhelmed by enemies if you're not careful,like,they pose a REAL challenge now!there's even fun little bosses to fight,puzzles,interesting rooms....and all that crap.

while it still feels kind of unfinished,it is a LOT more playable now,just add some special attacks,weapons and stuff like that,you'll have a totally serviceable game!...but considering some of the other games these people made in the past,i guess just serviceable isn't exactly what they're gunning for(i hope)

so i'm actually really interested about what else can happen in future updates,either way,i'm sure it'll get a lot more play time outta me,(and probably more money too). Great job developers.. Love the artwork and the story. I played through part of Treasure Adventure Game more than a year ago, but this remake is not only more visually beautiful, but it is easier to get in to the story line and while the game is mostly linear the plot boundaries are soft and it doesn't feel empty if you walk outside the main thread.. \udb40\udc21. I really recommend this game for 4 - 6 year olds. It's a very good game for kids to learn to use the mouse and also the puzzles are for that age. However this game might not be good enough for older kids or kids who are already good with the mouse.
